Students will be advised if the re-mark is approved. In the case of a paid re-mark, an independent marker will re-mark the original assessment submitted. If the independent marker confirms that the original marking is accurate the student will be informed within fifteen (15) working days of the re-mark request and the original mark allocation will stand. If the independent marker confirms that the original marking did not accurately reflect the result of the assessment item, the result will be amended. The amended mark (higher or lower) will be recorded as the final result for that assessment item. The student will be advised of the amended mark within fifteen (15) working days of the remark request form being received. Students who wish to lodge a grievance about the re-mark process (not the academic judgement used in re-marking their assessment item) should refer to the Student Grievance process.
