

ENGLISH FOR ACADEMIC PURPOSES

CRICOS Course Code: 069098D

Our English for Academic Purposes (EAP) programs help our students learn to communicate with confidence, while improving vital study skills essential for success in an English-speaking academic environment.

A student's current level and desired study pathway will determine which program they complete. The EAP syllabus and course dates have been designed to allow students a smooth transition from English to tertiary study. Students following a pathway to MUPC or Diploma will complete EAP 1 while the students preparing for University entry will complete EAP 2.

Within the 4 main skills areas, students can expect to develop the following:

- **Speaking:** giving presentations, participating in seminars and tutorials, working in groups
- **Listening:** listening to lectures, note-taking techniques, and listening skills practice
- **Reading:** developing essential strategies such as skimming, scanning and understanding assignment questions, coping with extended reading and reading practice

- **Writing:** learning how to write paragraphs, essays, reports, summaries, analyses of numerical data and case studies, plus researching and referencing techniques.

The materials used and tasks set will challenge students, and they will be encouraged to draw on their future direction of study or past career experience in selecting topics for assessments.

Emphasis is on adult learning and teaching methodologies such as collaborative learning, structured self-study and student teacher dialogue, similar to those students would experience at university, making these programs ideal whether students are studying for personal, professional or career development reasons.
